TECHNICAL SKILLS

- **Frontend** : HTML5, CSS3, JavaScript, Bootstrap5, React, Redux.
- **Backend** : Node.js, Express.js, Passport.js, Python.
- **Databases** : MongoDB, SQL, Firebase.
- **Tools & Frameworks** : Git, GitLab, GitHub, Jira, Postman, VSCode, Linux, AWS.

EDUCATION

2021	B.E. in Computer Science & Engg, (CEC) Visvesvaraya Technological University, Bengaluru, India 8.09 (CGPA)
2017	Vidhyadri PU College Class – XII 81.8%

SOFT SKILLS

- ● Analytical & Critical Approach
- ● Problem Solving
- ● Attention to Detail
- ● Team Oriented
- ● Time Management

AWARDS

- Client Appreciation Award by Nokia, 2022
- Star of the Month Award by Capgemini, 2022

PERSONAL DETAILS

DOB	: 6th December 1999
Address	: Hoskote, Bengaluru 562122
Languages Known	: English, Kannada, Hindi

CARRER OBJECTIVE

- As a **Software Engineer** with **2.4 years** of hands-on experience, proficient in designing, coding, and maintaining dynamic web applications.
- Leading the development of the **project**, utilizing in-depth knowledge of **Python, ReactJS, Node.js** and **front-end** technologies to drive innovation and excellence.
- **Collaborate with cross-functional teams** to optimize user experience and implement API integration, contributing to the organization's technological transformation.
- I am seeking an opportunity to contribute my expertise and continue growing in a challenging and innovative development environment.

WORK EXPERIENCE

Capgemini E & RD Bengaluru | Full Stack Developer | Sep 2021 – Jan 2024

Responsibilities:

- Engaging with cross-functional teams to enhance user experience through **user interface design** and execute **API integration** for streamlined functionality and improved user satisfaction.
- Championing the implementation of best practices in front-end development and **cross-platform development**, fostering the organization's technological evolution and growth through innovative solutions and strategic initiatives, utilizing skills in **HTML5, CSS3, JavaScript, React.js, Redux**.
- Developed the home module, which includes responsive and visually appealing UI components containing modules like login details, product details, and other associated modules, emphasizing **user experience optimization** and **responsive web design**.
- I worked in implementing robust authentication mechanisms, ensuring data security and user privacy, using **Node.js, Express.js**, and **MongoDB** for backend development.
- Fixed bugs on existing websites and implemented enhancements that significantly improved web functionality, web performance optimization, and speed, while utilizing skills in **Postman** for API integration and **Git** for version control.
- Involved in Build and integration releases such as Weekly release, official patch release, Debug patch release, adhering to **agile methodologies** for efficient project management and **quality assurance**, with proficiency in **GitLab, GitHub** and **Jira**.

PROJECTS

Social Media Web App -

Developed this feature-rich web app with **Node.js, Express, and MongoDB**, integrating friend requests, **chat system**, and user authentication with **JWT tokens** and **Passport**. Implemented **WebSocket client** for real-time messaging, along with user profiles, posts, and celebrity/organization pages

E-Commerce (BuyBusy) App -

Built BuyBusy, an e-commerce platform with **React.js** and **Firebase**, utilizing **Redux** for state management. Enables **user authentication, cart management, and order placement** with purchase history stored in Firebase.

Cloning Quora -

Developed a Quora clone with **Node.js, Express, MongoDB, and Passport**, featuring following users, asking and **answering questions, upvoting/downvoting, adding comments, saving** interests, personalized feeds, direct messaging, and social/local login with email verification and password reset.

Expense Tracker -

Developed an Expense Tracker web application using **React.js** for efficient expense management. Implemented dynamic features such as **adding, tracking, and deleting** expenses using Cloud **Firestore**. Utilized modular components and state management to ensure scalability and user-friendly interaction.

E-Learning (LearnEase) App -

Crafted an innovative e-learning app utilizing **ContextAPI**, hooks, **dynamic routing**, and Navigation Link to provide insights into seasoned programmers' problem-solving approaches. Offers a unique learning experience by showcasing real-time problem-solving strategies alongside pre-planned tutorials.

CERTIFICATIONS

- **React** : Boot Camp | Coding Ninjas – 2023
- **Python** : Data Structures in Python | Coding Ninjas - 2023
- **Back End** : Career Camp | Coding Ninjas -2023
- **Python** : Crash Course on Python | Coursera – 2021
- **Front End** : Career Camp | Udemy - 2020

Declaration- I sincerely appreciate your time and efforts on my behalf, am eager for the opportunity to join your org, anticipating further discussion.
